

Going to the Children and Young People's Bladder and Bowel Clinic: Beckenham Beacon

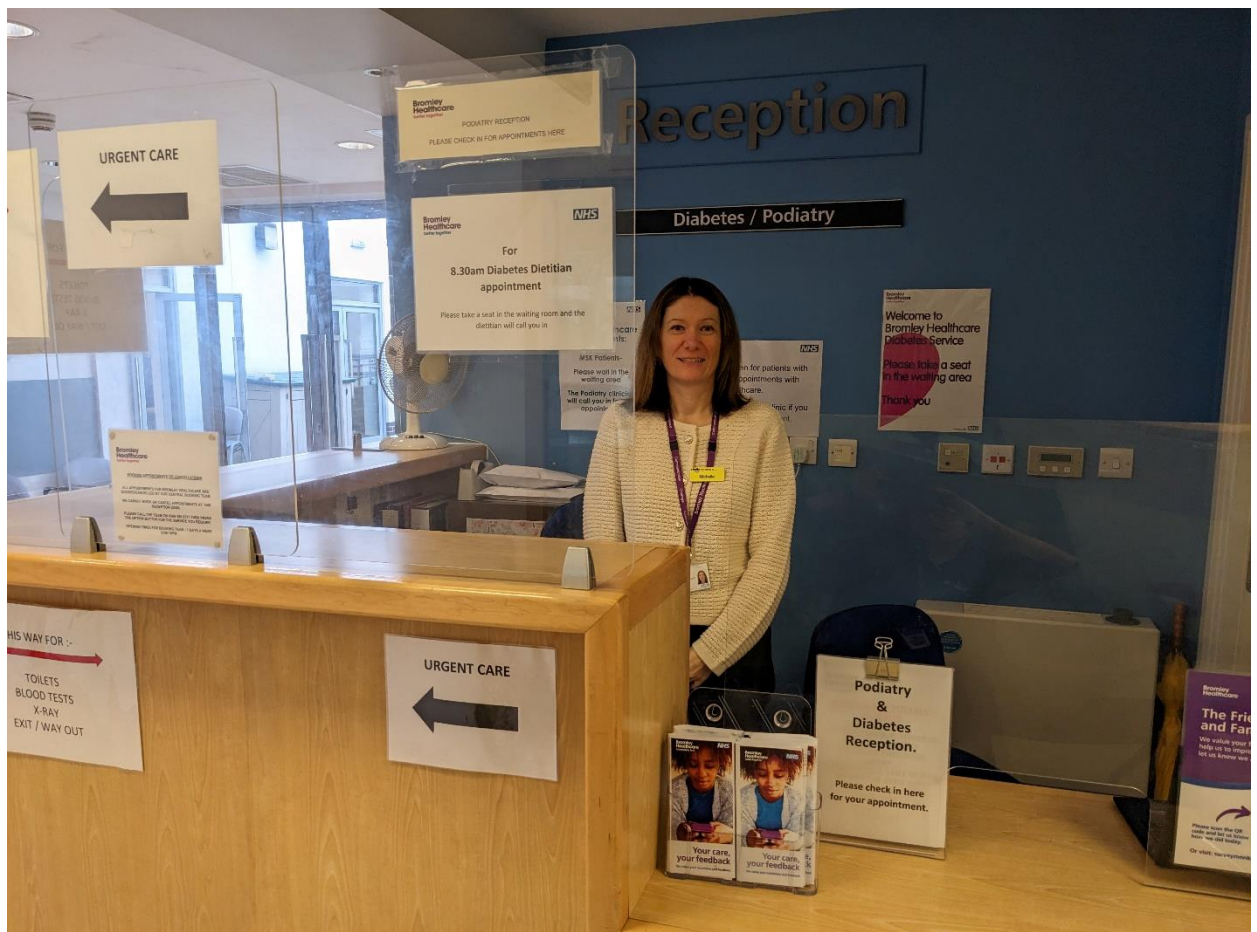

This is the main reception desk.

I can ask the staff for directions to
'Children's Bladder and Bowel
Clinic'

Next I will see a different receptionist, and tell them my name.

The desk is called 'Diabetes and Podiatry' but this is the correct one for my appointment too.

I will wait in this area for the nurse to call me.

There might be other people in the waiting room.

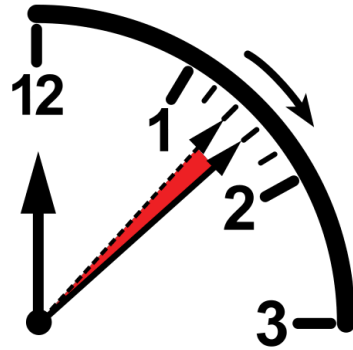

The nurse will take me to the clinic room where I will have my appointment.

There is a bathroom next to the clinic room if I need the toilet.

On Thursdays, around 11am, the fire alarm is tested. It is very loud, and will finish after one minute.

I can use headphones or put my hands over my ears if I want to.
